

Intermec

Service Profile

- Validates your RFID business case
- On-site trials, in the work environment
- Exact installation and operational testing

RFIDeploySM Services

Intermec's **RFIDeploySM Services** help customers accurately evaluate RFID technology and integrate it into their business processes. Since 1999, companies have trusted Intermec to implement well-planned, Smart, Secure and Seamless RFID systems.

Choose Intermec's RFIDeploySM suite of services to help you make RFID a reality.

Process Analysis

- We'll work with you to validate the business case for RFID in support of your business processes and goals.
- We'll provide a project scope, and include recommendations for hardware configurations, including type, quantity, and placement.

Site Analysis*

- We'll conduct a Spectrum Analysis to determine the presence and level of any existing RF interference.**
- Through on-site testing, we'll validate the hardware recommendations from the Process Analysis.
- By tagging and reading your products, under actual conditions, we'll determine read range capabilities and needs.

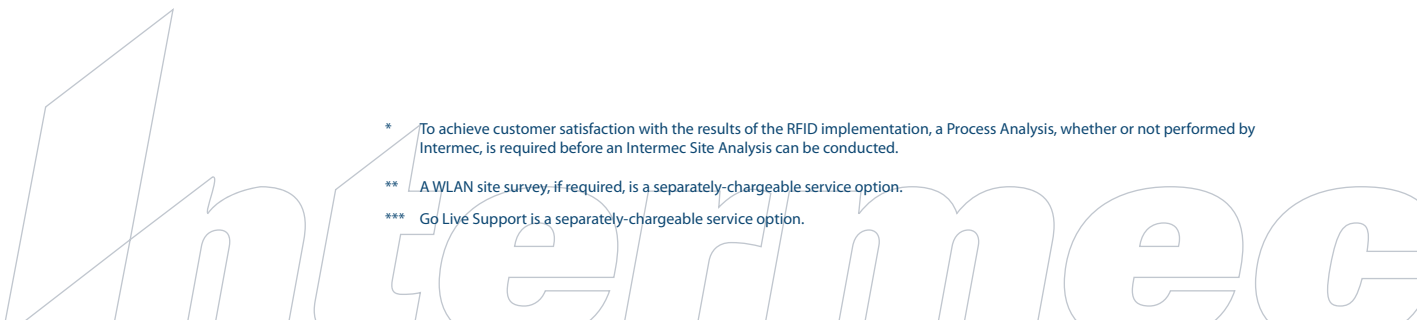

Site Installation

- We'll attach fixed readers and antennas, and direct precise construction of portals, light arrays, and other equipment, according to the results of the Site Analysis.
- Before "hand over", we'll provide operational testing of the systems and devices to ensure they perform to your expectations.***

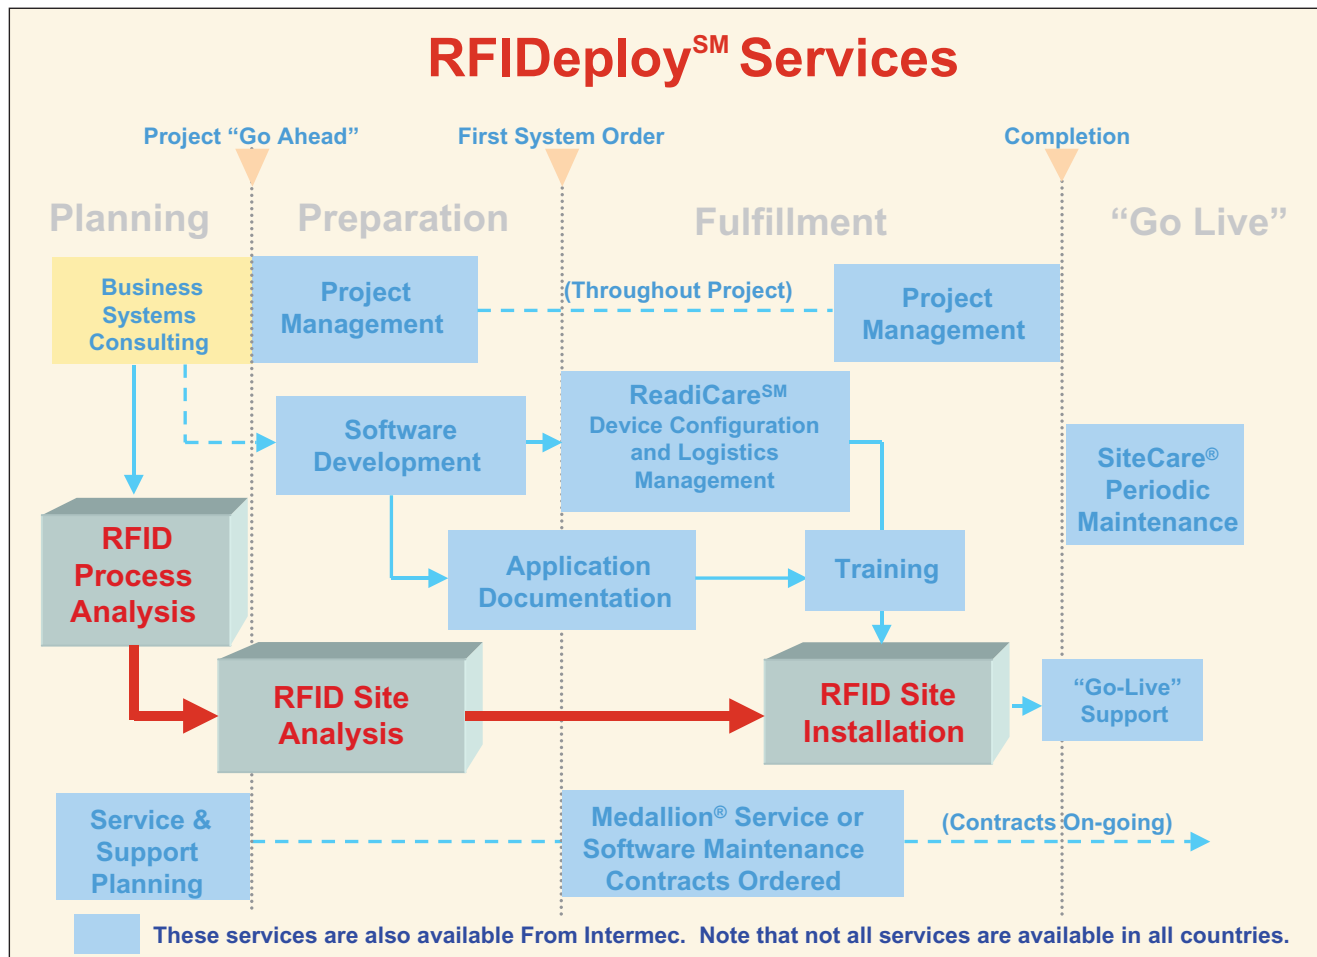

* To achieve customer satisfaction with the results of the RFID implementation, a Process Analysis, whether or not performed by Intermec, is required before an Intermec Site Analysis can be conducted.

** A WLAN site survey, if required, is a separately-chargeable service option.

*** Go Live Support is a separately-chargeable service option.

Technology Implementation & Support Services Available From Intermec

For large implementations and on-going support, we offer a number of services—from project management, training and logistics coordination, to go-live support, service contracts and on-site preventative maintenance plans.

If this is your first time implementing RFID, make sure it's not your vendor's. With Intermec there's the satisfaction of knowing we have years of successful experience implementing RFID for a variety of industries and applications for enterprises around the world. RFID Implementation from Intermec—Smart, Secure and Seamless.
